

Thermographer Recertification Form

Recertification is intended to apply only to individuals who maintain continued active employment within the field of thermography and demonstrate efforts to keep abreast of new developments in the field. Certified thermographers wishing to renew their certification at its current level are required to meet continuing education or professional contribution requirements during a five (5) year period.

Complete this form only if you are recertifying an existing certification and fulfill all requirements below.

If you wish to renew your certification, but cannot prove continuing employment and professional contribution or education, you will be required to pass the certification exam at either the end of a course at the Level you wish to renew, or by attending a certification refresher course if available. Keep in mind you can always extend your certification validity by being trained and examined into a higher category!

Do not complete this form if you are extending an existing certification through training and examination!

Step 1 – Candidate information

Student name:

Certification ID number:

Company:

Address:

Phone:

Fax:

E-mail:

Step 2 – Certification level

Level I

Level II
